**A word from our General Manager,
Wim Vanderschuere.**

First of all, I would like to thank you for your interest in the cortina professional footwear range.

I must say that, in my family, innovation in footwear has always been the key driver. With a clear focus on quality, comfort and pricing we aim to develop the right shoes for the right people.

To this day, our family-owned company Cortina sells over 32 million pairs of shoes worldwide on a yearly base, with the experience and knowhow of a highly motivated team and an unparalleled supply chain.

I am proud that for cortina professional footwear, I can count on the same international organization to offer you a wide range of innovative safety products. As part of the Cortina, all investments come from the company's own capital, making us a very stable and future proof partner.

In today's competitive landscape, we strive to bring noticeable added value in terms of innovative product development, marketing and sales to all our valued customers.

Whether you have bought Safety Jogger, Oxypas or Maxguard before, you are part of our loyal distributor network or you would like to work with us in the near future, I will always be glad to be at your service.

I cannot predict the future, but I am certain it will be a safer one when we shape it together.

Wim Vanderschuere

1950

Start of our history in shoe knowledge with the establishment of a small shoe factory in Belgium with the name 'Cortina'.

1981

Launch of the Cortina Safety footwear collection. As people mostly bought basic joggers to go to work, we felt the need to develop footwear with enhanced protection to help reduce the huge risk of workplace hazards.

1990

Registration of the brand name Safety Jogger in Benelux. A collection of high protection (safety) athletic footwear (joggers) was born.

2000

Launch of the brand Safety Jogger in Europe, with own distribution from our warehouse in Belgium.

2007

Selling the first pair of Safety Jogger footwear in Asia and ready for expanding our worldwide distribution network

2011

Development and manufacturing of the Safety Jogger work gloves collection to protect more than only people's feet.

2014

Launch of Safety Jogger in Russia

2015

Safety Jogger goes USA. To ensure our global 'always-in-stock' guarantee, we set up a brand new warehouse in Anaheim, California.

2016

Investing in innovation and technology. Using a 3D printer with state-of-the-art software to develop faster and according to the highest industry standards.

2017

Merged with Maxguard. Eight years after the founding of Maxguard, Maxguard opted for a company merge with Cortina NV.

Traction by Shoes for crews. Shoes for crews and Safety Jogger are introducing a new range of Safety Shoes into European Market in October 2017.

VISION

At cortina professional footwear, it is in our nature to protect. We strongly believe in active workplace risk prevention by developing professional footwear, gloves and socks that meet the highest global industry standards.

AMBITION

Our goal is to bring exceptional added value in terms of product quality, service and innovation putting the protection of people at work first. As we control every step from the design to the distribution, we aim to offer a profound technological expertise tailored to the requirements of our customers worldwide.

INNOVATION

We always want to be one step ahead when it comes to design, comfort and protection. Continuous investments in product development, research and state-of-the-art technology allow us to manufacture the most advanced safety products, based on real-time market demands.

Our in-house design and development teams can count on the latest specialized software, a modern sample making facility, a professional lab and a revolutionary 3D printer to implement new technologies faster, more precise and with less waste. This results in a well-balanced collection of fashionable and innovative safety products for both men and women. Always in stock and 24/7 available on our online order platform.

ENGINEERED IN EUROPE

All safety products are ergonomically and esthetically engineered by a European design team, with the support of experienced professionals. Founded in 2001 as part of the Cortina, Safety Jogger benefits from the extensive know-how of this international family-owned company with over 60 years of experience in the development, production and distribution of shoes and apparel, located in Belgium.

R&D FACILITIES innovation in every step

From the well-considered design and construction to the final product distribution, cortina professional footwear controls every step of the process. Advanced research & development facilities in Europe and Asia make sure all products are manufactured with the latest technological features and according to cortina professional footwear's quality standards. Thanks to the knowledge of our experienced footwear professionals, the continuous investments in training and innovation and our motivated employees, we are able to exceed your expectations when it comes to functionality, product design and service.

LAB quality is key

Quality is key in our organization. By developing in our own facilities and by inspecting all materials in the company's specialized test laboratory, we can monitor every aspect of the products we produce. As a result, we got certified by the most known institutes in the industry and can guarantee our products meet the highest norms when it comes to protection.

SAFETY JOGGER

SAFETY SHOES

HOES

Ultimate **SHOCK** absorption

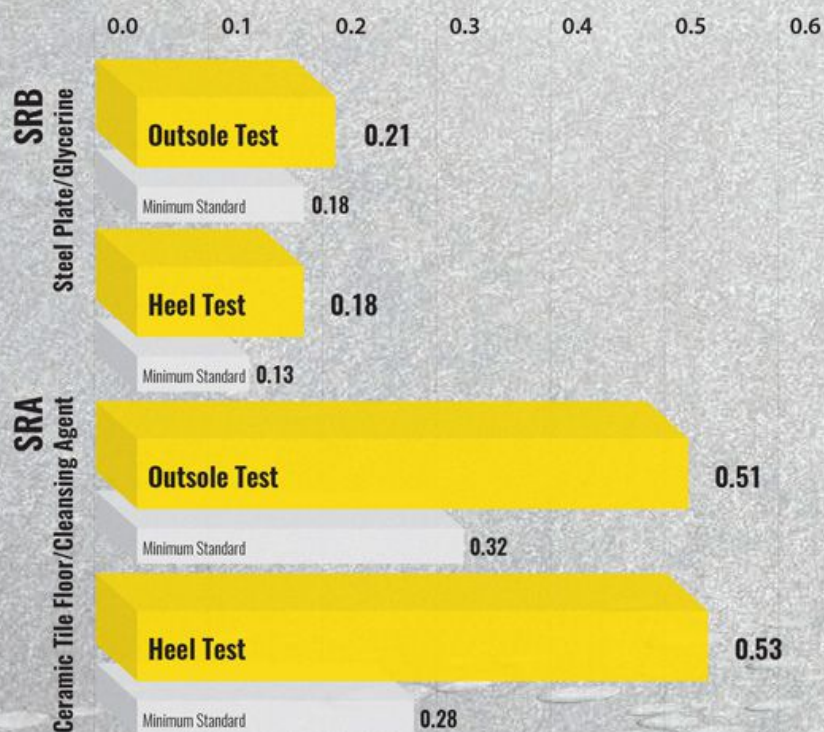

The Safety Jogger AIR Shock Absorber contains thousands of micro air bubbles with dynamic shock capturing characteristics. They naturally divide the heel energy to actively reduce fatigue and stress on the back of the foot. This creates a noticeable softer walking experience with optimum comfort all day long.

SRC

certified slip resistance

The SRC standard meets the requirements of both SRA and SRB, meaning the slip resistance of the outsole was tested on a ceramic tile wetted with a dilute soap solution and on smooth steel plate with glycerol. Safety Jogger's slip resistant outsoles pass both tests with glance and do not only fulfill the minimum standards, but exceed them remarkably.

TECHNICAL features

Thanks to continuous investments in innovation, extensive product testing in all stages and the knowhow of our team, we are able to offer you a wide range of technical features. We monitor the latest changes in safety standards and always try to meet or exceed them where possible. This shows you an overview of the icons we use inside this catalog. A detailed list of the technical specifications per product can be found on the product pages that follow.

NEW

Breathable mesh

Support tissue

Soft support

comfortable **IMPACT FOAM** insole

The new and revolutionary Safety Jogger Impact Foam takes full-surface foot support to the next level. The unique shape constantly adapts to the pressure of the foot, improving every step you take. With the additional arch support, your feet are kept stable and less vulnerable to injuries. The exceptional Air Breathability technology manages the in-shoe climate, keeping your feet dry and healthy. An extra Shock Impact Zone at the heel instantly reacts on heavy pressure to ensure extra comfort in this high-strain area. With the Safety Jogger Impact Foam, your feet will feel comfortable and fresh all day long.
